Summary:

I'm a student in the Software Engineering course at FIAP, currently in my Second year, and I have a degree in Systems Analysis and Development. I have knowledge of front-end, back-end and Scrum methodology. I have experience with Windows and Linux operating systems, as well as knowledge of Deploy, Pipelines, Web App, Database in a cloud environment (Azure). I would like to acquire more relevant skills and diversify my skill set.

I have a strong interest in QA, Machine Learning and DevOps, areas where I get my best academic grades and where I have already participated in university projects. In addition, I have experience with various languages and technologies, including:

- ❖ HTML/CSS: Experienced.
- ❖ Python: Experienced.
- ❖ Java: Experienced.
- ❖ C#: Beginner.
- ❖ SQL: Intermediate.

I am looking forward to continue learning and growing professionally, looking for opportunities that will allow me to apply and expand my knowledge in a practical and challenging environment.

Professional experience:

- Technical support for business management software (September 2024 - December 2024).
Customer service and maintenance of tables in a MySQL environment.

Education:

- Systems Analysis and Development | FIAP (2023-2025)
- Bachelor Software Engineering| FIAP (2025-2028)

Skills:

- ❖ Partial knowledge of Microsoft Office - Word and PowerPoint.
- ❖ Easily adaptable.
- ❖ Excellent interpersonal skills.
- ❖ Proactive.
- ❖ Communicative.
- ❖ Flexible.
- ❖ Dynamic.
- ❖ Problem solving.
- ❖ English | Fluent.
- ❖ Spanish | Basic.

Courses:

- DevOps & Agile Culture (FIAP - 60h)
- IT Governance (FIAP - 80h)
